If I was limited to just two words, I'd say "exacting craftsman". André was a pleasure to work with from the initial proposal process through the final completion. The contacts he gave us for the tile and fixtures were extremely knowledgeable, helpful and as pleasant as André. He worked directly with the suppliers and gave us a final proposal, not a quote which was fabulous. What made this job interesting is that other than the initial proposal process, we did not see André in person again. He handled everything. We were away during the two-week project and all communications were via text or phone. André updated me daily with texted pictures and descriptions. He ran into a few construction surprises that he overcame without sacrificing the finished product. What an experience to leave our Condo with a bathroom in serious need of remodeling and to return to a gorgeous, finely-crafted bathroom. André met all of our high expectations.

We worked with Andre recently for a total remodel of a guest, full bathroom. He was very transparent from the start, with pricing, timing...everything. He also handled everything with the providers and manufacturers. Andre was also always willing to provide an opinion, but would always ask first. While he was at our home, he was a joy to have around...very down-to-earth, funny and flexible. The end result was a beautiful, brand-new bathroom and a smooth, fun process to get there. I would...and likely will...hire him again.

Andre came highly recommended by my sister, who had him renovate two of her bathrooms. We have a large bathroom that serves as the main bath with an attached laundry area for a family of six. So, functionality was critical, but we also wanted a beautiful bathroom. Andre delivered both. His communication was always prompt and clear. He has a big and fun personality, so we enjoyed working with him and having him in our home. He has lots of experience and great opinions to offer, but he also listened to what we wanted, which created a great partnership. Andre is trustworthy, reliable, and takes pride in the work he does. We highly recommend him.

Andre Simone replaced our old kitchen and small powder room, helped us install new flooring, arranged for a quality painter for our entire downstairs area and replaced our drop ceiling in the laundry, lower hallway and powder room. He initially met with us to explain his process, recommend vendors and give us an approximate timeline of when he could complete the job. He communicated well with us throughout the entire project and followed through with all that he promised. He worked diligently without any gaps to finish the kitchen in a very timely manner, which allowed us quickly to resume our normal living activities. He does excellent work - a fine craftsman - He doesn't cut corners, but takes pride in making sure the job is done right. For example, he wasn't satisfied when he noticed that the granite counter top jutted out more on one side of the oven than the other and took the extra step without our prompting to arrange for the subcontractor to come back to correct the problem. All of the cabinetry he installed lines up beautifully and we appreciated the way he was able to improvise with what he had when the designer didn't provide all the necessary materials. There were a number of things he did above and beyond what was expected to make the process easier and smooth. He researched and made suggestions about lighting, accompanied us to pick out countertops, picked up store boxes that we could use to pack up our kitchen supplies. He even provided the recommended mop for our new hardwood floors and furniture pads so that we wouldn't scratch the floors. He also provided silicone protectors to protect our freshly painted walls from our new cabinets. The painter and floor installer he subcontracted with for our job also did excellent work. He suggested some variations to our ideas, which greatly enhanced the quality of the finished product. We couldn't be happier with how our new kitchen looks and functions and give Andre our highest recommendation. We look forward to working with him on another bathroom project.

★★★★★ 5.0

Though some unexpected problems came up in our never before remodeled bathroom of our 80-year-old house, André had the expertise and skill to handle them. He worked with the painting and glass contractors to finish the bathroom before Christmas, and everything looks beautiful. We would not hesitate to hire him for a future job. He returns calls quickly, and finishes the job he starts before moving on. We enjoyed having him around, and the bathroom is beautiful.

From the initial meeting through the completion of our bathroom Andre was a pleasure to work with. He's an honest, outgoing, hard worker and craftsman. He works on one job at time until completion. Demo was done day one and the entire bathroom was finished in two weeks, including a delay in the vanity top. The new bathroom looks fantastic and we will definitely have him back to do the renovation on our other bathroom.

“

Our kitchen is a WOW! We encountered some unusual problems in our OLD kitchen and Andre solved all of them. Our kitchen has low ceilings and I've always wanted a range hood that is vented to the outside. I now have one because Andre was able to adapt the hood to fit. He is easy to work with and has great ideas. He always cleans up at the end of his day. Andre goes above and beyond. His work ethic is very impressive. The end product is always amazing. We would not hesitate to hire him again. Thank you, Andre!

Description of work:

Demolition and remodeling our farm house kitchen. Andre also gutted and remodeled our master bath about 4 years ago. It's beautiful and we still love it.

Andre did a kitchen remodel for us over 10 years ago. Based on that experience, we were sure that if we were going to take on the mess and cost of a master bathroom overhaul, Andre would be our choice. His work is careful and thorough. His work ethic is impeccable. He does not demo and disappear-- no worries. He will likely not be your least expensive option, but you can be sure that he will guide you through what can be a stressful process with professionalism and humor to deliver results that will not disappoint. Bonus -- he likes dogs!

Highly recommended. Andre was a pleasure to work with... He made the project fun and delivered a beautiful bathroom. His experience and focus on kitchens and baths set him apart during the hiring process. He was considerate of our work/life schedule and always left our home clean after each workday (eg. Day 1 he set-up HEPA air filters to mitigate dust from the demo phase). He did the job right and corrected plumbing and framing issues left behind from the prior remodel. He listened to our ideas and struck a good balance with our ideas and his knowledge of what works well. We could not be happier with our new bathroom!

Andre recently completed a second bathroom renovation for us and we were absolutely delighted with the results - and the process. The bathrooms in our 100+ year old home present multiple complications for a contractor - layers of heavy tile to tear out, multiple layers of floor, uneven floors that need to be fixed, outdated plumbing and electrical that is difficult to figure out. But Andre takes it all in stride. For the second time, he has torn out and beautifully remodeled one of our bathrooms. Andre is careful, thoughtful, thorough, and meticulous about his work and we are 100% confident that we would not find a contractor that we would be more comfortable with - which is why he is returning to renovate our 3rd bathroom. He is honest in his opinions, and in his proposals. If something comes up that will change the original proposal (which I believe does not happen often) he communicates the change right away. On multiple occasions, he has made suggestions to us about materials or design that have really improved the outcome of our projects and we are very grateful for that. Andre is also a great person to have working in the house! My kids love him and always want to go check on what he's doing. He gets along with them great and never acts bothered, even when they keep pestering him. We'll all be sad to see him go when he finishes the last bathroom!

Great experience and very pleased with the finished product! Andre's work and planning are meticulous! This was our first bathroom renovation and we really felt that we could trust Andre's guidance and recommendations. All work was completed in time and within budget. Andre was very communicative throughout the life of the project about the progress made each day and his plans for next steps. The payment schedule was based on key milestones completed. We were very happy to know that he is certified in working with lead paint since this is an older home. He took care to ensure safety and best practices including a venting system to reduce dust outside the work area. Even wiped down our hallway and stairs after each day.

Description of work:

The provider did a complete rip and replace of a master bath circa late 1940s. He completed all work with the exception of the shower glass install himself. It was great piece of mind to know that one person was responsible for the entire job from start to finish. This included ripping out and disposing of all tile, flooring and fixtures, a custom build out stall shower, installation of all new tile and fixtures. Andre also had us work directly with his contacts at the tile shop and Ferguson. These individuals work with him regularly and were a great help in making selections for our new bathroom.

Could not be more HAPPY !!! We received extraordinary assistance and advice from Andre Simone. Andre was able to help us coordinate the cabinets and counter tops to match the style of our home. He personally met with us to discuss the different types of cabinet layouts as well as choices of granite. We could not be happier with our kitchen choices. It is not only gorgeous, but also very well-designed. We especially like the functional features of the cabinets. They are spacious and operate flawlessly. We cannot thank Andre enough for designing and guiding us. The kitchen has been a wonderful addition to our home. Andre is not only a great contractor, but a great person too. Our four year old son fell in love with Andre. He couldn't not have been more patient with him. Andre loved showing him all his tools and also how some of the work was completed. Lastly, I think Andre left our house cleaner than when he began working. His work is meticulous, he treats your house as if it were his own. You will NOT be disappointed when it comes to working with Andre. I look forward to him redoing out master bathroom in the near future!

We had been dreading having the bathroom renovated because of the time, headache, noise and mess. However, the entire process (and the outcome) were so much better than we ever could have imagined. It was so easy to work with Andre. He gave us realistic estimates of cost and time, suggested some excellent design changes that make the bathroom so much more functional (and beautiful), and completed the work carefully and in a timely manner. He takes his work very seriously and is a perfectionist in the best possible way. We talked to some other contractors before we hired Andre and asked them about some of the changes Andre had suggested - such as installing a pocket door to give us more room in the bathroom. They said it could not be done and we would have to stick with our current layout. It was pretty clear that they simply didn't want to be bothered making certain changes, or thinking through them, but it was not an issue for Andre. His goal is to provide an ideal product and he does everything that he can to deliver that. Andre is a true craftsman and does things the right way, rather than the easy way or the fast way. Our home is over 100 years old and he came across some surprises during the tearout that required some pipes to be moved, some work to make the floor even, some removal of old wiring (that we thought had been previously removed). However, Andre handled all of the problems that arose with care and attention. When he tried to install the floor tile we had selected, it simply would not lay right on the floor. (This was our fault - we picked a pretty shoddy floor tile). We selected a new tile and Andre called suppliers to find it in stock. He was able to pick up the new tile and start installing it the next day. I was at home during most of the renovation and it was a pleasure to have Andre around the house. He's an interesting guy and has a great sense of humor. He did a great job of keeping us informed about how the renovation was progressing, the problems that arose and how he planned to deal with them. We have at least two more bathrooms that need to be renovated and we would not dream of hiring anyone other than Andre. In fact, I wish he did more than bathrooms and kitchens because we'd hire him to everything. If you are looking for someone to renovate your bathroom or kitchen, look no further. I'm confident that you won't find anyone better than Andre. Working with him was far and away the best experience we've ever had with any service provider.

Description of work:

Andre completed a gut renovation of our upstairs hall bath, including installing all new plumbing, new bathtub, vanity toilet, flooring, tilework and accessories (towel bars, etc.). He also removed our hinged door and installed a pocket door, rehinged our bathroom closet door to make the closet more accessible and reworked the plumbing and dryer vent for our laundry room, which is adjacent to the bathroom.

Andre Simone did an excellent job on my backsplash. His work was professional and skillfully done. He arrived on time and the job was completed on schedule. I will definitely use him again as he is efficient and highly competent with rigorous attention to details. I highly appreciated that he addressed my requests for last minute changes with patience and respect.

Andre performed a major renovation of our master bath. Andre was one of four contractors who we interviewed. He replied to our inquiry promptly, he was on time to our meeting. He was extremely helpful with our design and choice of materials. Andre has strong opinions about how things should be done and what materials will give you the best outcome. His advice is worth listening to but in the end he will let you do what you want to do. Andre does almost all the work himself, except for installing the glass shower enclosure. He is a real craftsman and cleans up everyday. He started on time; finished on schedule and on budget. Andre is extremely honest and professional. In two instances the choices we made on materials were less than he had allowed for in his quote. On both occasions, he let us know that we were due a credit at the end and we received it. We enjoyed having Andre in our home. Besides being a real professional he is a good guy. We have had two minor issues where we have called him. On both occasions he responded very quickly (same day) and resolved the problem in a very timely manner. We would highly recommend Andre. We are just sorry he only does kitchens and baths. He is the best contractor we have ever worked with on a remodel.

Andre' performed his services with great care and attention to detail. As an example: He inspected the sink cabinet when it was received. Upon discovering a blemish in the finish, he immediately contacted the manufacturer. He was very careful about containing dust and cuttings. He brought in HEPA air cleaners, hung heavy canvas on the bathroom door. Each day, he laid canvas on floors and stairs leading up to the work. He was excellent about minimizing the disruption that most home remodeling projects can cause. We are very pleased with our new bathroom and Andre' Simone' work.

Description of work:

Ripped out and removed entire hall bathroom. Installed new tiled walk-in shower, tiled floor, sink, toilet, exhaust fan, medicine cabinet

★★★★★ 5.0

Andre did a fantastic job of renovating our master bathroom. He performed a complete demolition down the studs while completely preventing dust from the rest of the house. He then re-framed some of the walls, tiled, built a ceramic shower, ran electric, and installed all fixtures and vanities. He managed all supplies and shipments. He was friendly, easy to communicate with, and a pleasure to work with. He personally performed all work on his own, except for the installation of the shower glass at the very end. All details were attended to and his work is of the highest caliber. He made the remodeling process smooth and stress free. I can say there were absolutely no problems with his craftsmanship. The finished bathroom looks fantastic and we recommend Andre 100%.

Andre is extremely professional and likable. 1) He contacted us within 10 minutes of purchasing the deal, and this was on the weekend. 2) He scheduled a visit that day for our consultation for an evening during the week when my wife and I were both home to speak with him. 3) He showed up on time and fully prepared. 4) He exuded confidence and experience with remodeling bathrooms 5) He was extremely friendly and took his time explaining all of the details 6) He gave us a detailed list of what the next steps would be. When we ultimately learned that we would be moving and unable to schedule the work we had planned, Andre was extremely understanding and accommodating. He offered to work with us and Angies' list on coming up with a plan make us whole. Don't walk, run to hiring Andre for your next project - you will glad that you did.

Description of work:

We did not ultimately use the big deal we purchased through Andre Simon because we moved from the house we had plans for. Andre however, did come to our home to discuss our plans prior to when we knew we were moving. He is the ultimate professional, one that we will use in the future if needed, and one that I can definitely recommend.

After he came out and took a look at our project, he proposed a quote. This project was going to be a bit more than we expected, needing to replacing the drywall completely before placing the new tile so it would be able to be completely guaranteed by him. He was completely professional and very knowledgeable, unfortunately, at this time our budget was not set up for this project. I really appreciated the fact that he called me to follow up with me to see if I had made a permanent decision since my deadline of the 30 day refund guarantee was coming up. I would definitely consider using his services in the future under different circumstances.

We were very happy with our master bathroom remodel and very happy that we chose Andre Simone to do it. As we usually do for any work, we got three bids. After interviewing the three contractors, we selected Andre. He was not the least expensive, but he seemed to have the most established process. In fact, we were a little concerned that he had such very strong opinions. We were worried that he might be difficult to work with. But we wanted to hire an expert to do specialized work so we went with the guy who seemed to be the most knowledgeable and had the most clear cut process about how to get the job done. It was also clear through our conversations that Andre liked and took pride in his work. He spoke about it like a craftsman would and not someone who was just getting a paycheck. It turned out we were right. Andre walked us through the process from start to finish. He recommended several local suppliers of the materials we would need. The people at the stores knew him and knew what we needed to get. They walked us through the selections showing us our options in functionality, material, and price. After that Andre took over and ordered everything according to the measurements he had taken. Andre had a great attention to detail in his work. He stripped the bathroom down leaving the dry wall that looked in good shape and removing the rest. He went through and patched pieces of the under floor that were damaged. He did the little things that you would do as a homeowner that most contractors would not because it wouldn't be visible later. His tile work was excellent. He hand laid and cut all the tile expertly. The shower was very impressive in the way he troweled out the slopes of everything so the water flowed precisely where it needed to go. He had a strong knowledge of functionality and aesthetic. Andre tested all the seals with pressure over time and even discovered some defects in the manufactured products we had purchased. He worked with the supplier to get the parts exchanged and installed and retested them. We kept a dialog going through out the process. He asked our opinions when it came to stylistic things. He also had some very strong opinions. There were certain times when he highly recommended going a certain way that we disagreed with. Most of these times we acquiesced and were glad that we did. A couple of things we insisted upon and now wished we went with Andre's suggestion. On a personal note, we gave Andre a key to the house so that he could get in when we were not around. We soon felt very comfortable with this decision. He was especially good with our dogs and treated them and our home with respect. So we very much recommend Andre and will look to him for future kitchen and bathroom work.

“

Andre is by far the best contractor we have ever hired. He answers his phone HIMSELF! He returns calls promptly and shows up when he promises. From the first contact he was accessible and extremely professional. He came over and gave us an estimate shortly after we spoke. His written estimate arrived shortly after and mirrored what he told us. After we signed and gave him the job, he gave us a time frame for when he could start the work, and he stuck to it. We picked out what we wanted with regard to tile and fixtures and the final cost was based on that, which was very fair. His suggestions were right on target with regard to what we wanted and needed. He arrived exactly when he said he would on the date of starting the project. He was very organized and had the whole bathroom torn out on the first day! By himself! He covered everything in our master bedroom with plastic and was extremely neat and tidy in the house; this has not been the case with other contractors we have used for other home renovation projects. It was so reassuring having the same person doing ALL the work; no subcontractors coming and going; strangers underfoot all day; with Andre he does it all himself. He worked hard every moment he was here on the job; no sitting around wasting any time, etc. He took pictures of problems with plumbing he found in our crawlspace and showed them to us and explained how he could and would fix them. The tile work he did in the shower stall is beautiful! He's very personable and respectful of your home and furnishings. We would hire him again in a heartbeat. Never have we had such a professional, capable and hard working contractor do a job for us in our home. He was meticulously neat; covering the carpets too and running special fans to avoid plaster dust in the air. The best part was he completed the job in a very timely manner as promised and we were able to use the bathroom as soon as it was done. With other contractors we have had to wait for subcontractors for days on end while they finished up or worked on another job at a different location, etc. With Andre, your job is the one he is working on until he is finished. This means a LOT, and a lot less waiting time. The completed master bath is a MASTERPIECE! Excellent work! He's a consummate professional.

Description of work:

Andre' answered every call that we made to him in a timely manner, from our initial inquiry to after the work was completed. This was so important to us. He arrived when he said he would and was meticulous. He cleaned up at the end of every day so that you hardly new he was there. He is extremely efficient and does excellent work. He provided a schedule when he gave us his proposal and stuck with it. He kept us informed of his progress and any problems he encountered along the way. Our home is over 40 years old so there were definitely some structural issues that had to be dealt with. We felt very confident that Andre' was highly skilled and would do a great job, and he did. We are so pleased that we intend to have him return to renovate our hall bathroom in the Spring. We highly recommend Andre' Simone.

Description of work:

Andre' gutted our old bathroom down to the studs and created an entirely new bathroom with new plumbing, new tile in the shower, new glass door, new fixtures, lighting, toilet, sink, cabinets and quartz countertop.

Continue to scroll down.

Fantastic. If I could give an A++ I would. Far and away the best experience I've ever had with a contractor. He only works on one job at a time and does everything himself, so he's incentivized to keep things on a tight schedule. One might worry that such an incentive would lead to cutting of corners. Absolutely not. In fact, if there's an opposite of cutting corners, Andre does that. He really went the extra mile to ensure that all of the infrastructure behind the walls was sound, adding joists, leveling a heavily-settled subfloor, rewiring, and running new pex pipe to the basement from the second floor for both the shower/sink plumbing and the radiator. He even emailed me pictures of all the wiring and plumbing with notes before closing in the walls and floor, so that if we have to do work later on we know what's running where. He also kept the space and the surrounding rooms immaculately clean throughout the process. He really treated the project as if he were working on his own house and would have to live with the result. He managed third-party contractors very professionally, and got them to remedy their mistakes quickly and without changing the project budget. Andre also has a good eye for design and isn't shy about sharing his opinions on aesthetics and practicality, which are well informed by all of the prior, similar work he has done. Highly, highly recommended. My only reservation in writing this review is that it may contribute to his being even more booked up than he already is, and I would really like to work with him again on our next bathroom project.

Description of work:

Complete tear-out renovation of a passthrough bathroom into a master bathroom. The original 1904 bathroom was severely off plumb as the house had settled, so the job included a fair amount of structural work in addition to complete replacement of most of the plumbing and new electrical wiring. Andre came to our house multiple times ahead of the job to provide guidance and advice on the layout, materials, etc. He gave a very thorough quote. He executed a complete tearout (3,700 lb. of material) in approximately 4 days, and then completed the build in about a month, with at least a week and a half of that time the result of glass and stone fabricators not following templates and delivering incorrectly-sized components.

“

Andre Simone was the best choice for completely remodeling our 77 year old main bathroom. I don't think we could have done any better. His work is outstanding. And best of all, he works on one job at a time so he's finished in weeks rather than months. The bathroom was completely gutted and dust control was amazing. He used a large window fan and also set up a large air purifier on the landing outside the bathroom and a second one at the bottom of the stairs. He laid down tarps and cleaned up thoroughly every day. He takes a perfectionist approach and has pride in his work and you can tell that he really knows what he's doing. There were two problem areas that he handled with great skill: replacing some rotted beams in the floor framing; and gaining access to the area between the ceiling and the roof (since we don't have an attic) to install a vent for the exhaust fan by cutting out a hatch in the ceiling of a closet. He saved us money by advising us not to replace the original solid wood doors and not to install skirting at the bottom of the walls since it would be hard to fit those tiles properly in such an old house. I wonder if someone with less experience would have realized the latter. We were very comfortable with Andre in our house. He has a great sense of humor. You cannot go wrong by hiring Andre. My husband and I give him our highest recommendation.

Description of work:

Complete remodel of our main bathroom. The work included removing the plaster walls and floor down to the studs and beams, installing drywall, sub-floor, tile floor, wall tile with a border, bathtub, toilet, vanity, medicine cabinet, lights, an exhaust fan, and replacing some old plumbing.

Andre was excellent in every way from the first contact through the end of the project. The proposal process works well because Andre waits to provide an estimate until you've chosen your materials. When he began our job he worked through until its completion which is great because there is never a need to worry about him juggling multiple jobs like other contractors. Communication was excellent throughout the process and after as we communicated frequently by email and text. At least twice, Andre talked us out of adding scope to the project by providing an alternative or suggesting it wasn't needed. He even came back to fix an issue caused by another contractor after the job was completed! Overall, we couldn't be more satisfied with the work that was done and will contact Andre for additional projects in this home or the next. Highly recommended!

Description of work:

We had our master bathroom overhauled including tearing out our stall shower and installing a tile shower with a frameless door, replacing the existing floor, toilet, vanity, exhaust fan, installation of a medicine cabinet and installing new fixtures.

★★★★★ 5.0

Andre worked with us to design our bathroom and keep the fixture and cabinetry choices within our budget. He worked on our bathroom while we were on a vacation. We were very comfortable entrusting our home with Andre while we were away and he was wonderful to work with; he texted us photos of what he had accomplished each day. Our neighbor who keeps tabs on our house while we are traveling said he was in early each morning and worked steadily throughout the day. He worked over the weekend before we returned in order to "surprise" us with a completed bathroom! Andre's work is excellent and we couldn't be happier (more than one year later) with our beautiful bathroom.

★★★★★ 5.0

Andre was very professional, responsive and reliable throughout the whole process. He is direct and candid, and tells you what he thinks, which we really appreciated. In both bathrooms he removed a shower/tub and rebuilt showers in the spaces, replaced the vanity, toilet, flooring and lighting. There was unexpected water damage to the floor of the bath on the first floor, specifically extensive damage to a weight bearing beam. He walked me through the problem describing in considerable detail what he would need to do to repair it. The rebuild was extensive. Each day he provided some explanation of what he had done and what the next steps would be. Everything looks to have been done in a way that has made the flooring and plumbing stronger than the initial build. He even corrected a few other things that would not have been discovered except for the need to repair the water damage. The whole job was done with minimal disruption and dust to the rest of the house. He works extremely efficiently and neatly. We're very happy with the way everything has turned out and are enjoying the new spaces.

Andre was a pleasure to work with. It all starts in the beginning as he did not provide a bid without knowing the materials that we were selecting. This created a transparency in the process, as it was very clear what he was charging, and what it was based on. He is highly knowledgeable about what he is doing, and his attention to detail sets him apart from other contractors who are out there. He is highly personable and trustworthy, and as the customer, you take comfort in knowing that he never cuts corners. In fact, there is a great degree of confidence that he knows how to problem-solve during a job, and he is always right. Could not have asked for an easier experience in doing a remodel.

Description of work:

★★★★★ 5.0

“

He was very professional from the beginning. He gave us a written estimate and stuck to it. He showed up on time and stayed until he completed the job. He started at the same time every morning and cleaned up after himself every day. We ran into some unanticipated problems because our house is more than 200 years old. He solved the problems at a reasonable price and did a beautiful job. He is a skilled craftsman. He attends to the little details. His price was better than the other ones we were quoted even after the additional unanticipated cost. We have renovated several homes (including bathrooms) and he is the best contractor we have worked with. And on top of it all he is a really nice guy.

Description of work:

Andre demolished our old bathroom and installed a new bathroom from top to bottom.

Choose Andre because he was honest about cost. He also shared his design ideas which was helpful and was receptive (and patient) to our wishes as well. From the start we knew he was the right man for the job as the place was still very clean after demolition. Andre completed the job on schedule. We had a couple minor issues typical of jobs like these (none of which were his fault). He resolved through some great problem solving and even gave us choices on how to resolve the issue if there was one We love our new bathroom. Andre even came back promptly after he was paid to fix minor problem. We will be using him for our kitchen remodel.

Description of work:

Performed a complete remodel of our Master bathroom including vanities, tile work, shower, toilet, and lights.

Andre gutted and rebuilt our hall bathroom which was a 1960s horror, taking it down to the studs and building back up. He was punctual, efficient and actually fun to work with. I have never seen a project involving demo and spackling create so little mess. His control of dust and dirt and clean up each day was impeccable. The project was finished quickly, despite our best efforts to derail it through late delivery of fixtures we had ordered ourselves, and we are really delighted with the results. It looks terrific. He even came back a couple of weeks later on a Sunday to tweak the bath plumbing because the water was not running hot enough due to the manufacturer's settings. More than just doing the actual job well, when he first came to give us a quote he took a risk by suggesting we rethink our overly modern inclinations and be a little more traditional given our very traditional house. His advice steered us in a much better direction He also helped us with finding materials and fixtures we liked by suggesting other places to look. We ended up with good quality materials for reasonable prices and are very happy with the look and feel of the bathroom.

Description of work:

Remodeled hall bathroom, taking it down to the studs, installing new insulation, electrical. drywall, marble tile, sconces, recessed lights and all new fixtures.

From start to finish, everything was fabulous. I already know that I'll call Andre when I'm ready to start the bathroom remodel. Andre gave me suggestions about where to go to find the granite and tiles. He gave me advice about the faucet. He made suggestions about the placement of the accent tiles. He just made everything so easy. After our first meeting, I handed over a key and was not home during most of the work. I never worried about anything. Each day when I came home everything was neat and tidy. I have 2 cats who tend to get into things. That was not a problem because everything was picked up. When it turned out the the kitchen ceiling was too shallow to accept even the small profile recessed lighting we had chosen, he just took it in stride. He patched the hole that had been cut for the light. And he waited for me to pick out and receive a replacement light. I could not be more thrilled with the finished product. The quality of the work is terrific. And Andre's final price was less than Home Depot's estimate even though I ultimately used more expensive materials than on the Home Depot estimate. Great individual, quality workmanship, very reasonable pricing. If you are considering kitchen or bath work, just call Andre!

Description of work:

Andre remodeled our kitchen. He removed the old countertops and a few layers of flooring. He installed new porcelain tile, granite countertops, a new stainless steel sink and faucet, Travertine backsplash with accent tiles, and a new light fixture.

From the moment we called Andre Simone to the time we said goodbye after the job was completed, we found him to be trustworthy and knowledgeable. He directed us to various places to select the products we needed and worked within our schedule without a problem. We enjoyed having him and the men he employed to install the granite tops in our home. He was neat and everything was professionally installed. Our kitchen really looks great. He completed the work as he said he would and even installed a couple of dimmer switches which were not in the original estimate. We would recommend Andre without hesitation and plan to use him again when we remodel our bathroom.

Description of work:

We needed a new kitchen sink and faucet, granite counter tops, ceramic back splash between the counter and upper cabinets and a garbage disposal.

I cannot begin to adequately describe how much I love Andre' Simone. My only wish is that I could have him work his magic with the rest of my house (I'm saving up for my kitchen)...Andre' did a complete bathroom remodel for my older home. From the beginning, he was very helpful with tile selections and he even went out of his way to go to the tile store to check out my choices to make sure that I was on the right path. He understood what I was aiming for, but explained that what I had chosen would likely look too modern in an older home and he made suggestions that ended up looking great and saved me some money. My job was a nightmare from start to finish, thanks to the local inspector, but Andre' handled everything with great skill and humor. The quality of his workmanship is simply incredible--his attention to detail is impeccable. There is not one flaw anywhere in that bathroom. He even arranged the marble tiles such that the darker veins aligned in a really cool way. He even did some extra work that I needed some help with, like replacing a broken garbage disposal...I have no reservations about recommending Andre' to anyone. Additionally, we enjoyed having him around--he is a great guy, and even my dog misses him.

Description of work:

We did a complete remodel of our bathroom. Everything was removed, even the drywall.

This is the fourth room in our house that Andre has done. Previously he did 2 bathrooms and a den/study. The quality of his work, and the professional manor in which he does the job keep us coming back to Andre for all our home remodeling jobs. As usual Andre did a nice job on the basement. He tiled several hundred square feet and it looks great. He also tore out an old bar area and drywalled the area and installed cabinets for a small kitchen area. Andre is always on time and makes an extra effort to keep the house and the work area clean. He cleans up each day. One of the things we appreciate about Andre is that he only works one job at a time. So you may have to wait for him to start your job, but once he starts your job he works it exclusively until it is completed. We will continue to use Andre as we update some other rooms in our house and we would not hesitate to recommend him to others.

Description of work:

Andre installed ceramic tile in a very large finished basement , as well as removing an old bar area and installing some drywall and cabinets for a small kitchen area in the basement.

We had an excellent experience with Mr. Simone. He met with us, toured our existing bathrooms, and helped us to understand what options we had in creating new bathrooms for our home. After we made our choices he helped us to understand what features would work well in the design, which might not work so well, and how much our design ideas might cost. Most enjoyable in working with Mr. Simone is that he IS the company. He helps with estimates and design, he does the work himself, and he stands by his work. He tore out both of our bathrooms in a very clean fashion with little disruption to the rest of the house. He was timely and efficient in his work, and we always knew when he was coming and when he wasn't, and he was very conscientious about working around our own schedules. He installed new exhaust systems in both bathrooms, and created dual showerheads in one of our bathrooms. He took care of drywall work, plumbing, tiling, etc. It is clear that Mr. Simone takes pride in his work. He truly wants his customer to be happy, and we could see he was proud when we brought friends in to see his beautiful work. We have lived with the bathrooms for 5 months now and we continue to be very happy. They are still very attractive and functional, and have held up exceptionally well to the daily grind of 2 parents and 3 children. Recently, Mr. Simone stopped by to check on his work again and to make sure that everything was in good working order. We frequently get compliments on the flooring and tilework. You can probably find a cheaper contractor (and more expensive ones), but Mr. Simone is PERFECT for a homeowner who wants a quality job done by a quality craftsman! We will definitely use him again when we are ready to remodel our kitchen.

Description of work:

Mr. Simone completely remodeled two bathroom/baths, one in the master bedroom and one in our upstairs hallway.

I contacted Andre in March at which time he came out, did measurements and gave me information on what to look for regarding the size of the vanity, toilet and fixtures. At that time he told me he was booked until late summer if I was willing to wait, which I was. I used the tile and bathroom supply company he recommended and found exactly what I wanted. After I found a certified plumber and electrician as my township required (both from the list) and got the permits, he started the job the 2nd week of August. He said it would take about 2.5 weeks. It took an additional week due to major issues with the plumber. It would have been done on time if it wasn't for that. He was there pretty much every day (unless the electrician and plumber were scheduled to work) early and was usually gone by the time I got home from work. He did his best to keep the dust level down but when you have a house as old as mine, that is basically impossible. When I was out of town, he sent me text messages with pictures to show me the progress being made. All in all, my experience with Andre was great, I have a beautiful bathroom after some 27 years of living with a pretty ugly dysfunctional one. Every morning that I go in there I smile and admire his handiwork. Thank you Andre!

Description of work:

Gutted existing bathroom down to the studs, put in insulation, reinforced floor joists, built new shower and closet, put in new floor, dry walled ceiling and walls, installed tile in shower and floors, sliding glass doors for the shower, installed sliding closet doors and entry door to the bathroom. He also picked up the tile and fixtures from the supplier. The price for those is included.

“

We first hired Andre' 2 years ago to remodel our master bath and our den. He did an outstanding job and we knew we would eventually have him back to remodel the second bath. (See our review the first job from 6/4/08). Andre' did another excellent job on the second bath and it turned out just like we planned it and for the exact price we were quoted. Andre' is punctual and he only works one job at a time so when he's doing your work he's there everyday until the job is done. No shuttling between jobs. He is also very neat, cleaning up at the end of each day, using hepa filters when he is doing dusty work. He is meticulous in his work and insists on getting it right. He's also very pleasant to have around the house with his classical music on his small radio and his sense of humor. We were once again very pleased with Andre's work and would recommend him highly. I'm not sure what our next project will be, but we know we'll hire Andre' to do it.

Description of work:

We completely gutted and redid our second bathroom. The walls and floors were taken down to the studs and floor boards. The entire room was drywalled. The tub/shower was removed and replaced with a shower only. New tile, undertile floor heating and new cabinetry, new plumbing fixtures and new lighting were installed. It was a complete remodel.

Andre was efficient, polite, courteous, CLEAN, and punctual. He told us approximately how much it might cost on the initial visit, but then gave us homework to go out and select our granite, which depending on the quality, would determine the actual price. That was probably the hardest part, because the sample I picked was darker than the actual granite that was installed, even though I saw the giant sheet in the yard of the granite shop. So I was surprised that it wasn't as dark as I had remembered, but that had nothing to do with Andre's work. He picked out a sink and faucet that I loved, destroyed the old counter tops and removed it without any debris left in one day, installed counter/sink the next day so we could use our kitchen if we needed to in 2 days. The next two days were spent on the backsplash tile and that ended up being the best update I could have done to the kitchen after the counter tops. So for \$5k, my kitchen looks shiny and new, without replacing cabinets or floors. He got the job done in 10 days so we could have it in place for family visiting for the holidays! Very personable, honest, reliable person--just as all the other reviews said on Angie's--why I called him first to see if he was available!

Andre was very professional and his high ratings are well deserved. I contacted him for an estimate and he was able to meet the same day. He provided a fair assessment and helpful advise on the project as well. Prior to the installation he delivered an estimate/contract via email with insurance and licensing details. Once we scheduled the install he arrived as promised and completed the job with no fuss or mess.

Description of work:

New installation of dishwasher. Andre Simone removed an existing 24" cabinet and installed a standard size dishwasher. He installed a new dedicated circuit and tapped into the water supply and drainage.

I initially contacted Andre through e-mail, and he called back the same evening. After selecting tile and fixtures, we waited for our vanity to arrive before he was able to start (about 3-4 weeks). Andre was punctual, reliable, professional and personable. He was respectful of our home, always cleaned up before leaving for the day, and was tolerant of our two large, nosy, intrusive dogs!

Description of work:

Completely gutted our full guest bath. Replaced tub and fiberglass surround with new tub and tile, and replaced all the walls, floor and fixtures.

Andre is a hard worker and works by himself but is professional and capable of handling any problem that arose from taking out walls and removing bathroom fixtures etc. I am very happy with the new tile. It doesn't even look like anyone used the bathroom which is worth the price of remodeling. The project was completed in a week and a half.

Description of work:

We wanted to remove old tile and vanity from an upstairs bathroom. We had a builder's grade bathroom and wanted to have a better grade tile and an upgrade on the vanity and mirror with sconces. We had some missing tiles in the shower and upon removal of the walls, which was Andre's idea, there was mold on the shower wall.

We were slowly collecting references on local bathroom contractors for a 2nd floor bath with a slow recurrent leak, when another bathroom let loose with a torrential flood which nearly wrecked the powder-room beneath and then cascaded into the basement. Andre responded on an emergency basis to identify and shut off the correct pipe in our maze of antique plumbing. He got there more than 24 hours before our usual plumber and prevented major damage. He then provided timely, precise, and creative plans and estimates for both bathrooms; walked us patiently through the first-timer process of choosing fixtures and tile; and did a beautiful job on both baths, working within the constraints of our budget and floor plan. Despite the trauma, mess, and expense, it was a great pleasure working with him. In addition to quality work, he was able to work around a shifting population of children, visitors, and pets - in fact, he seemed to enjoy it. Although the costs did end up a bit higher than the original estimate, that was due to our evolving ideas; Andre's advice and estimates were consistently accurate.

Description of work:

Gutted and rebuilt two leaking bathrooms in a 70 year-old house with original plumbing.

The apartment was unoccupied, which made it easier in some respects. I picked out the tile locally, Andre paid for it and picked it up, so the cost above includes everything. The job took parts of three days and looks beautiful. I'm really glad to have the floor properly supported from underneath, which was never done when an old porch was converted to a kitchen many decades ago.

Description of work:

replace floor in small kitchen of rental property, which required bracing a sagging support beam underneath

Andre is the consummate professional. He shows up on time, is honest, ethical, and a wonderful craftsman. We gave him a key to the house so he could work while we were at work and I was never concerned about his trustworthiness. He cleans up at the end of every day, uses drop clothes for the area in which he is working and his pathways throughout the house. He has lots of great suggestions if you are unsure as to what you want; he has good taste and is committed to quality products and service. We would use him again in a heartbeat.

Description of work:

Master Bath completely gutted and remodeled. Built a new tiled shower with steam unit & body sprays, and frameless door with transom for steam; new vanity with granite, new lighting, toilet, floor tile, some plumbing and electrical work. We liked the work he did on the master bath so much, we had him update the hall bath for us with a new vanity, sinks, granite countertop and hardware. It looks great.

Andre does high quality work in a professional and proficient manner while striving to minimize the impact on your home. He works alone and doesn't use any sub-contractors. Andre offers good design input when prompted. In one instance our cabinet supplier sent the wrong item, Andre made alternate arrangements until the correct cabinet could be sent.

Description of work:

Andre remodeled two bathrooms for us, each of which was stripped to the studs of existing contents. The remodels included plumbing, new sheetrock, electrical for lighting and exhaust fans, bath and shower installation, tile and installation of fixtures and cabinetry.

I made an appointment with Andre after locating him on Angie's list. He responded within a few days, showed up promptly and gave a very good initial appraisal and an idea of what he thought needed to be done to do the job right. He directed me to several bathroom/kitchen and tile wholesale suppliers where I picked out the fixtures and tile. He emailed me an estimate for the job based on my selections and gave good feedback and alternatives where needed. Andre completed the demolition and rough-in work over Christmas holiday while we were out of town. Upon arriving home 10 days later, I found the house immaculate, furniture was covered, plastic was appropriately placed to protect from dust, the guts of the bathroom were missing but the drywall was up and 2200 lbs of debris hauled away!! Andre is very neat and careful. He worked with glass and porcelain tile, listened to my concerns and suggestions and was responsive and followed up to resolve any issues which I identified via a punch list following completion of the job. The new bath is very functional, in-keeping with the character of the house and the workmanship excellent.

Description of work:

Andre completely gutted and rebuilt our small 5X7 1920's style outdated bathroom which was in pretty poor condition and had some very marginal poor quality work performed on it in the past. He completed all demolition work, raised the floor, straightened floor joists, reframed one wall, drywalled entire bathroom and replumbed for new fixtures. He also completed the tile work, installed ceiling fan and installed new electrical work (outlets, sconce, lighting etc). This is an old house, everything is "out of plumb", Andre was able to work with these problems and has transformed the bathroom!

Having an old house, we were dreading this project. Not knowing what was behind the walls or what problems we might encounter. However, Andre eased our minds as he was able to handle every unexpected curve ball an old house can throw at you. Andre was also mindful of our budget concerns and was able to reduce the initial estimate by suggesting that we streamline our plumbing fixtures selections (we went way overboard at the plumbing supply store), which gave us what we wanted with a more aesthetic result. We have kitchen and another bathroom remodel in our future and Andre will be the one we call.

Description of work:

Complete remodel (down to the studs & floor joists) of a small bathroom. Replaced the old, 50's style bathroom with a pedestal sink, toilet and tiled shower, installed a ceiling fan and added wall insulation.

Andre contacted me right away after I left him a message. He came out and measured for the job and gave me suggestions. He was 7 weeks away from being able to do it, but he did come and do the job at that time. The spaces were left immaculate when the work was completed.

Description of work:

I had hardwood flooring installed in my living room and dining room. Andre also replaced the fixtures in my powder room, moving lighting and installing a dimmer. The work was done very professionally and when scheduled. I am very pleased with the job and definitely will use Andre again.

It was a fabulous experience. We worked with Andre on the initial design; we had several plans and he helped us pick the best one. From there, he sent us to pick fixtures, tile, etc. He was extremely punctual and always kept us in the loop; not easy with both of us working. The bathroom turned out beautifully, more than we expected. It is definitely high-quality. And, the entire process was very smooth; we had some problems with the tile (because of our vendor, not his) and Andre worked through it with the vendor; we didn't need to worry at all. I was especially thrilled by how clean and neat he was. If we ever get to do our master bath, Andre will be the one we call!

Description of work:

We remodeled a third-floor bathroom and closet. The bathroom was completely remodeled, right down to the studs and we expanded into a closet for a linen closet and (future) washer-dryer area.

We obtained 3 quotes from contractors for the work. Two of the contractors had done work for neighbors that we had inspected. The third quote was from Andre Simone, who we found through Angie's List. After we worked through all the quotes and got clarifications so that we knew we were comparing apples to apples, Andre was the least expensive (by \$3000 and \$10,000) over the other two contractors. We then asked Andre to let us see some of his work and to provide us with three references. We inspected a master bath he had recently completed and it was gorgeous, with excellent workmanship. The three references raved about Andre and his work and several of them had used him more than once. We hired Andre and he was able to start the job about two weeks later. The job took about 5 weeks and we absolutely love the finished work. We designed the rooms ourselves and knew what we wanted. As Andre quoted the job he had some excellent suggestions for improving our design. While we didn't take all the suggestion we took many of them and the rooms are better for having done so. Andre does all the work himself except drywall (he brings in his own subcontractor) and painting (you're on your own to find a painter and coordinate work with Andre) and he is meticulous. He is also exceptionally neat in his work so that dust was kept to a minimum as were disruptions to our family's daily routine. During the job we initiated several change orders and in each instance Andre priced it out before he did the extra work and didn't do the work until we had agreed. In the end the work came in at exactly the price Andre quoted, plus the change orders we had approved. Upon the completion of the work, the rooms came out just as we had envisioned them and we are now enjoying the rooms. Throughout the job Andre was a pleasure to deal with, always respectful of our wishes, helpful with his suggestions and exacting with the quality of the work. We plan to do another bathroom next year and Andre will definitely do the work for us.

Andre did a fantastic job!!! We don't know what we would have done without him, as two of our remodeling situations needed immediate attention. He is a superior craftsman and you could see it in his work. He always came when he said he would and was on schedule with every project. Andre always called to let us know his schedule for the job. He was very particular with his work and always kept the area clean. He was also very easy to work with both in preparing the project and estimate and during the renovations. He is a very pleasant person and it was a pleasure having him work in our home. We are very lucky to have had him recommended to us. Without a doubt, we would highly recommend him to anyone for a kitchen or bath project. We have been so very happy with what he has done for us.

Description of work:

Andre helped us in a difficult situation with a bathroom that was half done. He immediately came and took over the job and finished the bathroom. He then remodeled completely our master bedroom bathroom. We had another job that needed to be done in our rental property. We had a fire and the kitchen and bathroom were completely destroyed. Andre tore out the burnt structure and put in a new kitchen and bathroom at this property. He later completed a small kitchen project for my son's new home after he moved in.

Andre was incredibly responsive to all of our needs. He promptly came to view the space, gave us an estimate and quickly returned any phone calls. He was easy to work with, overcame any obstacles and had great design ideas for a difficult space. He was very neat and courteous of our home and our space. The bathroom is beautiful and are hoping to do the kids bathroom soon!

Description of work:

The master bathroom was completely remodeled. The original builder grade shower, bath, toilet and vanity were removed along with all of the ceramic tile flooring. The space was taken down to the studs. We replaced the shower with a large closet and replaced the jacuzzi tub with a large shower and steam room. The shower also has body sprays and a large sunflower overhead. All of the tile was replaced with natural stone and granite. The shower and steam room floors have marble. The vanity has a granite counter top and a wall mirror.

Relationships and character are important to me. We established both which allowed me to feel comfortable leaving him alone in my home. Secondly attention to detail is important to me. The powder room tile work convinced that I hired the right guy. Straight grout lines and laying of tiles was just great. Andre has a good eye and takes is time to get it right. The Master Bath truly exceeded my expectations and I enjoy the praise I get when others view the finished product(s). From the shower install and tile-work to the granite work, everything was meticulously done. It is a Master Bath and then some. In addition to his attention to detail, Andre was on prompt on arrivals and completed the job within reasonable and expected time frames. He also has a good rapport with the plumbing supply store I choose and that was helpful as well. Andre will be the contractor for my final bathroom which is scheduled to get underway in early October 2007.

Description of work:

Two bathroom projects. Powder Room - Andre removed the old floor and carpet and replaced it with new ceramic tile and grouting. He also and installed the of pedestal sink, toilet, ceiling light fixture and hung the mirror. The powder room was the test project for Andre. His attention to detail convinced me that he was the right contractor for the Master bathroom. This project consisted of gutting the entire bathroom and rebuilding it from scratch. He rebuilt the walls, enlarged the shower, added new lighting, tiled the shower and floors, installed the cabinetry, the granite top and vessel sink and related granite accents on the shower entrance, shower bench and soap holder and installed the toilet. Lastly he order and the custom frameless door to complete the project.

Kate Hart, Rampart Ridge

Chris, I highly recommend Andre Simone Kitchens & Baths. He does terrific work, is fairly priced, and is professional -- he'll definitely get back to you. He has great reviews here on nextdoor and on Angie's List. www.simonekitchensandbaths.com

10 Feb · Original post not visible

Cathie Cooper, Rampart Ridge

In 2008 André Simone remodeled our master bathroom. He submitted a proposal on March 6 and the bathroom was completed on July 1. We were most impressed with André's professionalism, his thoroughness, his perfection, his dependability, and his cleanliness at the end of each work day. Because he did not begin the project until he had all the needed materials and because he is able to do all facets of the project, we did not have to wait for any outside contractor to continue any part of the project which ensured that the project was completed in a timely manner. Also, because André is such a perfectionist, the finished bathroom was and is still beautiful. As an added note, at the beginning of the project, André encountered much unexpected water and termite damage; again, because he can do all facets of work, he was able to make the needed repairs after discussing the issue with us. His workmanship is beyond compare!

3 Mar 20

Joan Link, Rampart Ridge

Andre Simone is just incredible. He completely gutted our 1960's bathroom and transformed it into the bathroom we envisioned. Andre has an outstanding work ethic and has an eye for detail and design. In addition, he is a very nice man and a pleasure to work with. I highly recommend Andre Simone without reservation!

23 Feb 20

Carolyn Kreusser, Rampart Ridge

Andre is very helpful / knowledgeable... he has a wonderful eye for design.

18 Feb 20

Kathleen Osterhoudt, Rampart Ridge

The first time that I worked with Andre Simone he gutted and renovated two of our bathrooms. The process went smoothly from start to finish. Andre started with one bathroom and completed it before he moved onto the next. We had three little kids at the time which can be chaotic, but the bathroom renovations hardly interfered with family life. Andre arrives every day around the same time and works a full day. He stays on your job until it is 100% complete. He takes pride in his work and it shows. His knowledge and craftsmanship are exceptional. We were so pleased with the bathroom renovations that we had him back to renovate our powder room, sunroom and kitchen. The thought of being without a kitchen for an extended period of time was scary, but I knew that Andre would keep to his schedule. He has a very strong work ethic. Andre kept to his schedule all while providing expertise and superior work. I absolutely love the finished product. I strongly recommend Andre Simone!

11 Feb 20

Alison Morris, Rampart Ridge

Andre installed our kitchen backsplash and we were very happy with the finished product. Andre was timely, professional, and most importantly, an expert in his trade. We highly recommend Andre and look forward to working with him again on other projects.

27 Jan 20

Jeanne Kauffman, Rampart Ridge

We couldn't be happier with the kitchen and bathroom remodeling that Andre did for us recently. He is an excellent contractor. He stayed in touch, stayed on schedule and didn't cut corners. If he discovered an issue, he wanted to make it right. He gave us good value for our money and we appreciate the beautiful work he did for us. What was really great was his helpful advice and guidance that prevented us from getting bogged down in all the decisions we had to make.. He deserves our highest recommendation. We would definitely use him again for another project.. Jeanne Kauffman

19 Jan 20

Dan Gobat, Rampart Ridge

Andre did an amazing job redesigning and installing a brand new kitchen. Super reliable, uses the best materials, and is trustworthy. All at a reasonable price. Would highly recommend him!

11 Jan 20

Felicia Robbins, Rampart Ridge

Andre is extremely helpful and knowledge in the field, and has a great eye for design elements!

10 Jan 20
